

Substitutes: Make Their Day

Goal:

- To provide information about training and support of substitutes/guest teachers working in MYD schools.
- To provide an opportunity to answer questions and share ideas regarding substitutes and MYD.

What is Helpful?

- Provide a substitute folder. The folder would include information to implement the program in the classroom.
- It is important for a guest teacher to know that MYD schools may have different procedures, point values, etc.
- Sometimes an administrator or their designee will introduce the guest teacher to the class.

What to Say and Do

- "Hello, my name is _____. Let me tell you how you can make your day today."
- Ask them if they know what Step is and can they briefly explain.
- Ask the students if they know who decides if they go to Step.
- Ask where the Step takes place.
- Ask them to demonstrate. (This may work better at the lower grades.)
